President Trump has just called for a protest in DC on the day Congress counts electoral votes. Imagine this, reports will be released showing foreign interference and deep state corruption that were directly involved in meddling in the election. Everyone knows the depths of corruption.. These Democrat and Rino Congressmen are forced to a vote whether or not to confirm the results of this election while thunderous stomps and chants are erupting outside the building. You think that might encourage them to do the right thing? A million angry Patriots outside their doorstep while they try to steal our vote from us? Things are coming together. Hold the line! President Trump has this under control!

Yes, there will be a buildup to this crescendo. All will be revealed and the streets will be full.

Outside the building? We will outnumber every body guard and oath breaker protecting the Chinese assets meeting in the Capitol.

We should be looking into the chamber when Pence counts the votes.

If we push our way in they simply can't stop us. Won't have to fire a shot.
If they shoot us, the second revolution starts right then and there.

Anyone remember the details of the French revolution?

I wonder just how peaceful it will be if they do the wrong thing. And I wonder if there would be enough force immediately available to stop what could happen.

I wonder...

They will not be voting in person. They will be sitting at home on a giant zoom call.
